

Detroit ESSC Shop Committee Report

August 24, 2010

INFORMATIONAL PICKET IS A GREAT SUCCESS

We would like to thank all those who helped make the Informational Picket a success on August 5th. It was a very hot and humid day, but you the members prevailed with a great turnout. Don't forget to watch the testimonial video on YouTube, it is titled "Delta Air Lines Informational Message from Detroit 8/5/2010" (Links to the video, and additional photos are also available on the Local Lodge 141 website, locallodge141.com or Facebook).

IT IS IMPORTANT YOU KNOW WHAT BELT TO PUT YOUR CTX BAGS ON

All members who work online need to be vigilant about dropping off CTX baggage on the correct belt. Several seasoned vets running online have been disciplined for making this mistake. Please make sure you are dropping them off on the CTX-belt, and **NOT** the T-belts (Transfer belts). We are open to any ideas to keep these mistakes from happening in the future. Please e-mail the Shop Committee with any ideas.

MIDWAY HEALTH CLINIC USE TO BE DISCONTINUED DUE REPORTED PROBLEMS

Several Members have reported problems with the Midwest Health Clinic. The company and the Shop Committee have agreed to part ways with Midwest Health Clinic. Also, if any members are contacted by Coventry Nurses, you do not have to allow them into your doctor appointments, access to your medical records, speak to any of your doctors or their staff, and you do not have to talk to them if you do not wish. Their job is to get you back to work ASAP, whether you have fully recovered or not. It's in our best interest not to have too many hands in the cookie jar. Only you, your OJI manager, and ESIS case worker should be involved. Your ESIS case worker is the only one who can approve, or disapprove all your medical treatment. So why deal with a 3rd party who could potentially mess up your OJI claim.

In Solidarity,

Raymond Painter Leon Allen Steve Kostora
DTW ESSC Shop Committee

Reminder, please wear you "Union Strong" T-shirts Monday and Friday.
